Updated ThinPATH Portal Version 3.3 Training Module

Date: April 11, 2003
PMN: #122
Distribution: Worldwide
Author: Deb Erwin

Overview

The ThinPATH Portal training module (module 6) has now been updated to reflect the changes made in Portal 3.3. See PMN #121 for a description of the new features.

Both .PDF and .PPT versions of module6 are on the SE web/ftp site:

<ftp://ftp.ncd.com>

Access

Certified NCD trainers and NCD system engineers may access this updated training module by logging into the ftp server with their login and password, then change to the training directory to get the updated module6.ppt.

Additional Documentation

Additional technical information concerning ThinPATH Portal version 3.3 may be found either in the installation and release notes on the NCD download web page or in the updated ThinPATH Portal Administration Guide located at http://ww.ncd.com/support/docs_thinpath.html.
